South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Itrne Carver

South Carolina Public Service Commission

Dear Public Service Commission,

Enough is enough! Stop living in the past. Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be completely energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Jamie B Wolcott
